

Outstanding Oak Trees

Dear Parents/Carers,

Welcome back to the summer term! I hope you've had a lovely Easter break and eaten plenty of chocolate. Hopefully we will see a little more sun and lot less rain over the next few weeks.

This half term, the children will be continuing to learn about the topic they've helped to choose 'What is the big bang?' They will be exploring the different beliefs about how the world started and what created life on Earth. They will also be investigating each planet and what the solar system is made up of, so if anyone has anything they would like to bring in relating to space, we will happily share it in class. We are also collecting small plastic bottles and fruit netting from lemons and oranges, so please send them in if you have any spare, as we will use these in our exciting art lessons.

Please let me know if you have any questions, my email is:
iskelton@leavening.n-yorks.sch.uk.

Many thanks,
Mrs Milson

Spellings and Maths Homework

Oak Trees will continue to be given a new spelling pattern to learn every Thursday afternoon. They are expected to search for at least 10 words that have that particular spelling pattern and then write 5 sentences using different punctuation marks, to ensure they understand the meanings of those words too.

It is vital the children check their sentences make sense and that the words are spelt correctly. It is particularly important for them to check they have used the most basic punctuation, but also to try and be more adventurous with other punctuation marks and fronted adverbials too. Please encourage your child to do this. House points will only be given if children have thoroughly checked their sentences.

It's fabulous to see the majority of children are also practising extra maths questions at home, as we also do mental maths tests every Thursday afternoon. Well done Oak Trees!

Jumble Sale to Raise Money for New Books!

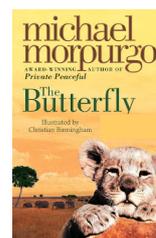

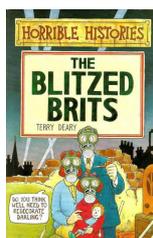

In the second half of the summer term, children from Oak Trees are going to organise a jumble sale. The intention is to raise funds to buy a selection of new engaging books which will link to the topics that they've helped to choose.

If you have any items such as teddies, books, toys, sports equipment, jigsaws etc. that you no longer use, please start sending them into school. It would be fabulous if the children could raise money, in order to buy themselves high quality texts that are rich in vocabulary and will inspire their imagination. These books will be used in various literacy and guided reading sessions, and encourage lengthy discussions and questions between the children, which will develop their comprehension skills.

We will also be organising a tombola, so please send in prizes such as wrapped bottles, chocolates, stationary sets etc.

Oak Trees are publishing poetry!

Leavening School are going to continue creating different types of poetry relating to various topics they're learning. Mrs Simmons (Lily and Amy Kemp's auntie) works for a book publishing company and she is hoping to have our book published by the end of this summer. There will also be a competition in school for children to design the front cover. We will send more information within the next few weeks.

**Thank-you in advance- any items to sell
will be greatly received.**

| Langton SATS Club sessions | Leavening SATS Club sessions |
|---|---|
| Tues 17 th April 2018 Fractions, Decimals & Percentages | Thursday 19 th April 2018 Statistics & Measures |
| Tues 24 th April 2018 Calculation (Add, Subtract, Multiply, Divide) | Thursday 26 th April 2018 Reading Comprehension |
| Tues 1 st May 2018 Spelling, Punctuation & Grammar | Thursday 3 rd May 2018 Ratio, Proportion & Algebra |
| Tues 8 th May 2018 Number, Place Value & Arithmetic | Thursday 10 th May 2018 Spelling, Punctuation & Grammar |

Year 6 SATS Week!

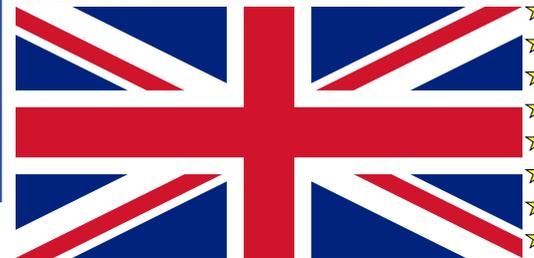

The SATS club sessions will continue at Langton School and Leavening School from 3:15pm till 4:15pm. A huge well done to all the year 6s who have taken part in the majority of the sessions each week.

SATS week will be 14th May – 17th May in the mornings. We want the children to feel as relaxed as possible leading up to SATS week, so we will try to make the revision as fun as possible, and we'll continue to provide a creative enriched curriculum throughout the term, including art, computing, PE and science.

Royal Tea Party

As you will know Prince Harry and Meghan are getting married on Saturday 19th May. We thought this would be an amazing opportunity to organise a tea party to celebrate the Royal Wedding on Friday 18th May 9:30am-11:00am.

All children will be able to come to school wearing red, white and blue if they wish, and donations of cakes, biscuits and sandwiches would be greatly appreciated. We would like to invite parents and friends to join us for the tea party at Leavening School starting at 9:30am. Tickets will be available on the day at a cost of £2, which will include: a sandwich, a slice of cake and a cup of tea/coffee. We look forward to seeing you then!

Summer term 1 April-May 2018

Dates for your diary this half term!

- 18.4.18- Year 3, 4 and 5 children start swimming at Pickering (last session 13.6.18)
- 2.5.18- Year 6 parent SATS information session 3:30pm
- 7.5.18- Bank holiday- school closed
- 14.5.18-17.5.18 – Year 6 SATS week in am
- 15.5.18 – Mrs Marshall and Mrs Farnhill taking year 5 children to Norton College for a taster day
- 18.5.18- Royal Wedding tea party for children and parents 9:30am-11am
- 23.5.18- Oak Trees watching Ampleforth College's matinee performance of Wind in the Willows- children back at approx. 5pm
- 24.5.18- Langton/Leavening maths day- Oak Trees at Langton (pack up needed for dinner)
- 25.5.18- Mrs Ray's last day and break up for half term

Big Battery Hunt!

If you have any more batteries at home that you've been collecting, please send them into Oak Trees by Wednesday 25th April. We are amazed at how many children have taken part and we'll be asking the Gazette to take photos of how we've helped to save the planet. We may even win some prizes for our efforts- fingers crossed!
Thank-you for all your help so far!

Mathematics

We are going to be learning how to calculate the volume of various cuboids and put them into size order. We're also going to be estimating the capacity of different sized containers and then measure the amount of liquid in millilitres followed by litres. We will also be reading time tables and solving word problems such as working out how long journeys are or how long a film lasts. We will also be practising the long and short division method and use rounding to solve real life problems.

Performing Arts/ Drama

Towards the end of this half term, the children will be told the name of this year's summer performance. We will be busy practising the song words, learning actions and dance moves, and practising the character's lines and movements on stage.

Art/Design Technology

This half term, children will be drawing the different planets. They will be using a range of media such as wax crayons, water colours, felt tips and cross hatch using pencil crayons to show exactly the same image in a variety of ways. Oak Trees will also recreate the planets, sun and moon using balloons, papier Mache and paint to show the correct sizes and colours. They will also use them to demonstrate the rotations and orbits that the Earth, sun and moon are involved in. We will also be using the spouts of plastic bottles and fruit netting to create an impressive space scene with various brightly coloured paints.

Music and French

In French, Mrs Stockill will be teaching Oak Trees about sports and hobbies. In music, they will continue exploring performance and composition for the first part of the half term. Towards the second half of the half term, the whole school will start practising for the summer performance. Mrs Stockill will continue to do a choir practice 12:30-12:55 on a Friday. French and music 10:50am-12:10pm every week. Some year 6 children will be having extra maths, reading and grammar, spelling and punctuation revision boosters during this time.

Physical Education

Year 5 and 6 children will continue to have a full afternoon of PE with Mr Clark every Friday. He will continue to do football club 12:30pm-1:00pm on a Friday lunch time as normal.

Literacy

Oak Trees will be producing many different styles of poetry relating to space. They will include alliteration, similes, metaphors, adjectives, verbs, adverbs, expanded noun phrases and other grammatical skills they have learnt. The most important thing to remember about poetry, is that it can sound as crazy and bizarre as children want, and it doesn't have to rhyme. The children will also be writing their own exciting adventure stories about someone they know who travels up into space and experiences a mind-blowing adventure.

Science

In Science, Oak Trees will be investigating how scientists believe the world started and what caused the 'big bang'. They will be learning about the order of the planets in space, what they are all made up of and what the universe consists of.

What is the big bang?

Outstanding Oak Trees

Dear Parents/Carers,
