

What can be improved?

- Higher attainment in Maths
- Improvements in children's spellings
- Work together with parents more collaboratively
- Work with other schools to improve our practise
- Review of the curriculum to ensure it meets the needs of our learners
- Improve the learning environments within the school building
- Improve playtime and lunchtime activities
- Improve the website
- Involve parents more
- Provide extra curricular opportunities

“If you stand still, you will go backwards”

What we have achieved already this year.

- Phonics is being taught across the whole school to support improvements in spelling in KS2
- We have introduced guided maths each morning
- We have improved our way of teaching Maths.
- Our nursery children are more integrated with the rest of the school.
- We are building strong community links.
- We have a new school website which is much more informative
- We have made improvements to teaching and learning
- We are working with other schools to develop our school and support them in doing so

What I want for Leavening Community Primary School...

I want to enrich childhood through making the school a fun and happy place to be

I want children to have more of a voice in what they want to learn

I want to create a positive community

I want to allow each child to fulfil their potential and provide opportunities for them to do so

I want my staff to fond every child's unique skills and talents and enable them to flourish within these

I want to create an inclusive school.

I want to raise the profile of the school

I want the school to be the hub of the community

I want to work with parents as partners

I want children to be achieving as high as they possibly can by raising aspirations of everyone

I want the teaching and learning to be outstanding

I want to incorporate global awareness in the curriculum

I want us to become an 'Eco- School'

I want to develop our involvement in enterprise projects to prepare our children for the world we live in

I want to provide real, meaningful and purposeful opportunities for our children in the curriculum

I want to review the behaviour policy and introduce new school values, houses system with inter house competitions

I want to encourage extra curricula activities and enrichment opportunities for our children.

"If your actions inspire others to dream more, learn more, do more and become more, you are a leader. "

So....

Children at Leavening already get a 'good' deal.....

...But we want them to get an outstanding deal!

Thanks for your continues support, Sian Mitchell
