

Conkers Homework

Spring 2

For our topic 'A country Life', you can choose from the following list of activities to work on at home. Don't forget you can choose to complete any number of tasks (at least one) and present them in any way you want to.

Homely Habitats

Can you have a go at making at home for a woodland creature to keep it safe and dry? Try and use natural materials.

Invent a creature!

Invent an incredible creature— it could have superpowers or even have 2 heads. Write instructions explaining how to look after and feed this wonderful creature. You can choose what clothes it wears, how it speaks and how it moves.

Growing!

Plant a seed and watch it grow. You could make a cress head or plant something in the garden. How did you look after it? Take photos or make observational drawings of your plant as it grows. Maybe you could bring it into school to show us!

Become an artist!

Create a picture of an animal of your choice and label it with 5 interesting facts. You can choose any medium to use such as: paint, pencil crayons or a 2B sketching pencil. You could even use coloured paper or fabric to create a collage.

We look forward to sharing your homework in school. Please complete at least one task and bring it into school on Monday 30th March.

Reading

- * Please read with your child as often as you can.
- * Try to encourage them to read with expression and fluency.
- * Remember to sign your child's reading record. We will only change your child's reading book, once it has been read and signed at home 3 times.
- * Your child can read comics, magazines, letters, books from home etc.

Spellings

- * Y1 and 2 will be sent home with spellings on Mondays to practice for testing the following week.
- * Reception have tricky words in their book bags to practise reading, recognising and writing weekly.

Maths

- * We have a selection of maths games available for the children to borrow to play at home. Please let school know if you would like to have a go!
- * BBC Bitesize KS1 and Topmarks are brilliant websites for helping children practise maths in a fun and exciting way. Please encourage your child to have a look!
