

Computer Science Theory.

Internet Services

The Internet is useful because it lets **people communicate** and **share information** across the world **quickly** and **easily**.

Message friends, share photos and find followers.

Send messages to people and collaborate on ideas.

Webpage Design.

Creating a Website

A website is made up of several **pages** about a topic, **navigated** in a **non-linear order** in a web browser.

Digital Literacy.

Tips for Effective Web Searching

- ✓ **Use key words.** e.g. capital city France
- ✓ **Use inverted commas** to find exact names. e.g. "Queen Elizabeth II" "Chinese New Year"
- ✓ **Cross-reference (compare) websites** to check the information on them is **reliable**.
- ✓ **Put information into your own words** to avoid **plagiarism** (copying somebody else's work and pretending it's yours).

Comparing Search Engines

Which has the **nicest design?**

Which has the **fewest adverts?**

Which includes **fact boxes** in the results?

Which shows you the most **useful results?**

Key Vocabulary:

Search engine, prioritised, bias, URL link, accessible, user friendly, retrieved, creative commons, formatted, manipulated, hyperlink, navigate, aesthetically, published
