An excerpt from Walk the Plank

Ashanti was playing in the park with her older brothers. They were playing pirates on the pirate ship climbing frame and Ashanti was being made to walk the plank again. She jumped and landed in the sand with a loud bump. She didn't like walking the plank but her brothers always made her. Ashanti looked up angrily at her laughing brothers and noticed something flapping under the ship's frame. It was a small piece of paper with a skull and crossbones on it.

She reached out, touched the drawing and suddenly there was a flash of light. Ashanti looked around and saw that she was on a real pirate ship at sea. Her brothers were there too and they looked scared. What were they going to do?
