

## Conkers Class (Year 1 and 2) at Home Learning Activities

### Summer 2 'Time Travellers'

Select from the following learning activities:

- In **PSED**, we are thinking about changes. Look at photos from when you were born until now.

*Can you make a poster, using these photos, to show how you have changed?*

- In **DT** we are learning about the importance of safety and hygiene when cooking. We are also learning about a balanced diet.

*Can you plan and make a fun healthy snack? You might want to draw the snack, print a photo of it or write the recipe or instructions.*

- In **Science** we are exploring materials and their properties. *Can you design a new moving toy? It could be a ride on for you or toy for a younger child. What materials would you use and why? Make a junk model of it or draw/paint a picture. Then write labels or stick them on to your model.*

**We look forward to seeing all of your efforts in the week beginning Monday 15th July**
