Years 1 & 2

Select from the following learning activities (these are optional - only if your child wishes to! The main 'learning at home' activity that we recommend is reading at home with your child at least three times per week. Thankyou!)

- Can you draw or talk about a job that might exist in the future? Will there be alien explorers, robot repairers, or space farmers?
- Can you write or dictate a short story about traveling to the future?
 What did you see? Who did you meet?
- Have a think about what people will eat in the future... Draw or describe a
 futuristic meal. Will it be colourful? Will it grow on trees? Maybe it's in a
 tablet. Maybe we won't need to bother chewing anymore?
- Think about how we can help the Earth in the future. Draw or talk about one thing we can do to protect nature (e.g., recycling, using solar energy).
- Design a poster about a future invention. Draw and label it and write a short description of how it works and why it's useful.
- Using recycled materials or craft supplies, create a model of a time machine. Write a few sentences about where you would go and what you'd see if you used it.

Please bring your finished activities into class to share with us during the week commencing Monday 10th February- we look forward to seeing them!
