

Key Vocabulary	
living	Animals and plants are living things. Living things need to have their basic needs met to survive.
used to be alive	If something used to be alive (or was once alive), it means it used to be living but isn't anymore. Now, it is dead.
never alive	Things made out of metal, glass, plastic or rock were never living because they did not move by themselves, grow or need food.
survive	To survive means to stay alive.
basic needs	Basic needs are the things that living things need to stay alive (water, food, shelter).

Key Knowledge		
Alive	Once Alive	Never Alive
		

Basic Needs

All living things need:

			
shelter	food	air	water

Key Vocabulary	
habitat	A habitat is the natural place in which something lives. A habitat provides living things with everything they need to survive.
microhabitat	A microhabitat is a very small habitat that minibeasts live in.
depend	Living things in a habitat depend on each other to survive. This means they need each other to meet their basic needs.
food sources	Food sources are the things that living things eat.
food chains	A food chain shows how each animal gets its food. Food chains are one of the ways that living things depend on each other to stay alive.

Key Knowledge		
Here are some examples of habitats .		
		
woodland	urban	coastal
		
ocean	polar	desert
Here are some examples of microhabitats .		
		
under rocks	under logs	under leaves

In a **food chain**, each arrow means 'is eaten by'.

grass

caterpillar

sparrow

hawk
