24 November 2025

Dear Parents and Carers,

Just a friendly reminder about our Maths Families Project and the 3-week activities we send home for you to enjoy together. These little tasks are designed to be fun, quick and confidence-boosting for children (and grown-ups too!).

We know that attitudes towards maths can be shaped from an early age, and spending a few minutes exploring maths at home—whether through games, puzzles or everyday problem-solving—helps children to see maths as something enjoyable, achievable and part of real life.

There is absolutely no pressure to complete them perfectly. They are not marked, and they won't be used for assessment. Instead, we simply celebrate the effort, creativity and collaboration that goes into them. Every little bit of engagement really does make a difference to children's confidence and enjoyment of the subject.

Thank you for your continued support—"Together We Can" make maths a positive experience for every child!

Best Wishes

Sian Mitchell
Headteacher

Look and learn beyond the classroom
Have high aspirations and fulfil our potential
Care, share and belong
Lead, teach and learn with passion
